September 2017	35	0	20086
October 2017	60	0	20146

There were 10 surveillance inspections conducted at 9 different sites for a total of 60 fish sampled this month. Samples are targeted to moribund and fresh mortalities when possible. The water temperatures began to decrease in response to the cooler air temperatures. Routine harvest continued. There were no cages confirmed this month. There was one Category 2 site identified which will be sampled biweekly. The rest of the sites with fish in the water remained Category 1 and were scheduled for monthly sampling.
